

HOBART IS DEAD

Vice President of the United States Expired Suddenly This Morning.

A NATION IN MOURNING

President McKinley's Sorrow Over the Loss of a Very Dear Friend.

JOHN HAY IN LINE OF SUCCESSION TO THE PRESIDENCY.

Senator Frye of Maine Becomes President of the Senate and Will Preside Over the Deliberations—Mr. Hobart's Condition Began to Change For the Worse Yesterday Afternoon—Cause of Death Said to be Heart Failure—Family Were All About the Death Bed—The President Notified.

Paterson, N. J., Nov. 21.—[Special Telegram]—Vice President Garret A. Hobart died at 8:30 o'clock this morning.

Hobart's condition began to change for the worse yesterday afternoon when his heretofore wonderful vitality seemed to desert him. The physicians who have been at his bedside for the past two weeks administered strengthening medicines, but they seemed to have no effect. At 10 o'clock last night he sank into a deep sleep, but at midnight woke up and spoke to Mrs. Hobart, who was kneeling at his bedside. Then the vice president became unconscious and remained in a comatose condition the rest of the night.

The cause of his death is said to have been heart failure.

Mr. Hobart's wife and son, Garret, Jr., Dr. Newton and wife and Alice Wardwell, the nurse, were with the patient when he died. Mrs. Hobart is bearing up well under the shock. No arrangements have yet been made for the funeral.

As soon as the vice president expired a message announcing his death was sent to President McKinley and Gov. Voorhees of New Jersey.

A SHOCK TO PRESIDENT MCKINLEY

News of Hobart's Death Causes Mrs. McKinley to Break Down

Washington, D. C., Nov. 21.—[Special Telegram]—President McKinley has not received such a shock since he has occupied the White House, as when the news of the death of vice President Hobart was announced to him this morning. Mr. McKinley has been in constant communication with the dead man's family, and recently has had great hopes of a complete recovery.

When the news of Hobart's death was received here immediately steps were taken to show the respect of the government to the memory of the distinguished dead. The white house was closed to visitors, and all the official flags were lowered at half mast.

Secretary of State Hay called at the White House as soon as he heard the news. Senator Fairbanks and ex-Secretary Foster also called and expressed to the president their sympathy for the loss of his colleague.

Mrs. McKinley who was most intimate with the Hobart family broke down and gave way to heart breaking sobs.

McKinley and Hobart Very Close.

Not in many years have relations between president and vice president been so cordial as during the present administration, and that almost from the moment their names were associated as candidates on the republican ticket. Not only has there been the most perfect harmony between the two officials, but a warm and enduring personal friendship has made their relations particularly happy.

No member of the cabinet has been in closer confidential relations with the president than has the vice president. When there were delicate missions to be undertaken either inside or outside the administration vice President Hobart was more often than any other called upon for advice and tactful service. He, as the president's representative, dealt with delicate situations in the senate and even in the cabinet.

Vice Presidential Succession.

Vice President Hobart will be succeeded in the office of president of the senate by Senator William Pitt Frye of Maine, who is the president pro tempore. As for the office of vice president, to which Mr. Hobart was elected, that will remain vacant until the choice of a suc-

cessor by the people in November of next year. Since the formation of the government, fourteen senators have been acting vice president by reason of the death of the duly elected vice president or his election to the presidency. The only duties performed by the acting vice president of the United States, are, of course, those of the president of the senate, as the sole official function of the vice president is to preside over the deliberations of that body. In case of the death of President McKinley, Secretary of State John Hay would become president according to the law in such cases made and provided until a president could be elected at the next general election following.

Washington, D. C., Nov. 21.—Admiral George Dewey has transferred to his wife the title to the home which was presented to him as a token of esteem by his fellow citizens. The transfer was accompanied by two papers which car-

thenticated and is freely discussed here.

The transfer deeds were formally placed on record Monday by officers of the recorder of deeds, by which Admiral Dewey transferred to his wife, Mrs. Mildred McLean Dewey, the house 1747 Rhode Island avenue, which was purchased for the admiral by popular subscription on account of his services in the Spanish-American war.

GEN. WHEELER WILL RESIGN

Urges United States Sovereignty Over the Philippine Islands

Manila, Nov. 21.—Gen. Wheeler has decided not to return to congress. He is writing a letter to President McKinley with a request that it be forwarded to the house of representatives. In the course of an interview he said:

"Congress, if it occupies the first day of the session in passing a resolution declaring in unmistakable terms that the sovereignty of the United States is to be maintained in the Philippines, thus dispelling Aguinaldo's delusion that the anti-imperialists can assist him, will be performing a sacred duty. Such a resolution would save the lives of many American soldiers and thousands of deluded Filipinos; would avert famine, suffering and desolation from these islands and would render unnecessary the expense of hundreds of millions of dollars."

HOLY YEAR BEGINS ON DEC. 24

Pope Leo Busy Writing His Encyclical on the Holy Year.

Rome, Nov. 21.—Pope Leo is writing his encyclical on the holy year announcing the conditions which will be imposed on Catholics wishing indulgences. The encyclical has abolished for 1900 indulgences reserved in the various sanctuaries throughout the world. Thus whoever is desirous of receiving indulgences will be compelled to visit Rome except those who are aged at least 70 and those who are ill.

Holy year begins on Dec. 24 with the solemn opening of the sacred doorway of St. Peter's by the Pope, who has appointed Cardinals Oraglia, Satolli and Vannutelli to open the three other sacred doorways. Foreigners already are flocking to witness the great event. Millions are expected.

MAY ORDER A MINERS STRIKE

Probability of Calling Out a Large Number of Union Men

Indianapolis, Ind., Nov. 21.—President John Mitchell of the United Mine Workers of America, says he expects to order a strike of all union miners employed by the Susquehanna Coal company of Nanticoke, Pa., and those working for the Missouri Pacific, Missouri, Kansas and Texas, Cotton Belt and Iron Mountain railroads in Missouri, Kansas, Arkansas, and elsewhere in the southwest.

The trouble is not over a wage scale, but grew out of an order making the miners "round up" their boxes with coal.

RECEPTION TO THEIR BISHOP

Omaha's People Turn Out to Greet the Rev. Williams

Omaha, Neb. Nov. 21.—The nine Episcopalian churches of Omaha joined in tendering a reception last night to the Rev. Arthur Llewellyn Williams, the recently consecrated bishop coadjutor of the diocese of Nebraska. The reception was given in the Commercial club rooms. The bishop was accompanied by Mrs. Williams. There was no formal program, no speeches, no attempt at anything except to give the bishop a cordial welcome. Refreshments were served and a string band furnished evening music.

PLANNING FOR THE PARTY.

Democratic National Committee Getting Ready for Next Year.

Chicago, Nov. 22.—The democratic national executive committee, with Senator J. K. Jones in the chair, spent Monday considering matters pertaining to organization, ways and means, and the administrative affairs of the party. The committee meets again today. Little was said about a meeting of the national committee, but it is the opinion of most of the executive committeemen that the full committee will be called to meet in Washington Feb. 22, and that the national democratic convention will be held the latter part of May or the first part of June. The committeemen were extremely uncommunicative as to what was done at Monday's meeting.

From unofficial sources it is learned that the chief results of the conference were as follows:

Plans were launched for the establishment of an educational bureau to distribute literature and otherwise strive strenuously to enlighten voters on the important political issues.

Subscriptions to the party's campaign fund aggregating \$145,000 were reported.

Committeemen informally expressed themselves in favor of making trusts and imperialism the paramount issues.

Holding of the national convention in May or even earlier, prior to that of the republicans, was advocated strongly by most of the members.

Full national committee meeting was announced to be held in Chicago or Washington between Jan. 8 and Feb. 22.

Congressman Sulzer attended to advance his candidacy for leader of the minority in the house.

ON THE TRAIL OF AGUINALDO

Troop of Cavalry is in Close Pursuit of the Rebel Leader.

HE IS FLYING NORTH

Generals Wheaton and Lawton

Joined Their Forces in West Luzon.

Gen. Schwan Says That the Cavalry Showed Signs to be Close Behind Aguinaldo if They Have Not Already Got Him For a Prisoner—Last Batch of the Insurgents are Finally Surrounded and Cannot Escape.

Manila, Nov. 21.—[Special Cablegram]—The gunboat Helena which arrived today with the crew of the Charleston, reports that while passing the battleship Oregon in the gulf of Lingayan the latter signalled that Aguinaldo was making for the north with twelve officials and that a troop of cavalry was in close pursuit. The Oregon also signalled that Wheaton and Lawton had connected their forces and were driving the insurgents into the mountains.

All of the 'Charleston's men are well. The Helena was storm bound five days at Camiguin. Gen. Schwan sets considerable store by the Oregon's advice concerning Aguinaldo's position. He believes it is quite likely that the cavalry should be close behind him, if it don't already hold him prisoner.

REBEL CHIEF IS HEMMED IN

Dispatches Indicate That Aguinaldo Cannot Reach the Mountains.

Washington, Nov. 21.—War department officials are expecting any day the news of the capture of Aguinaldo. The dispatches that came Monday indicate a remarkable advance by our troops in the last few days.

More than this, the junction of Wheaton's and MacArthur's force closes the cordon of determined soldiery that stands between the crafty rebel leader and the mountains which, once over, would mean a prolongation of the campaign, with the capture of Aguinaldo decidedly uncertain.

It is regarded as fortunate that Gen. Otis has so managed the new campaign in Luzon as to bring about a union of troops as far north as Dagupan. MacArthur must have made marches of incredible swiftness, considering the rainy weather and soggy ground.

Dagupan is within twenty miles of the one object toward which Aguinaldo and staff have been hustling the last fortnight—the city of Bayambang. It being well-nigh certain that he has not crossed the hills and reached the valley in which Bayambang lies, it is pretty safe to add that Aguinaldo is at last really surrounded.

AGONCILLO ENTERS DENIAL.

Paris, Nov. 21.—Agoncillo, Aguinaldo's representative in Europe, has given out the following:

"I refute President McKinley's assertion that hostilities between the Americans and the Filipinos on Feb. 4 were suggested by me to Gen. Aguinaldo. The Filipinos could not have provoked the conflict. They always wished to maintain the friendly relations created between themselves and the Americans in the war against Spain. The Filipinos were compelled to engage in the present war solely to defend their independence."

ADMITS HE KILLED FATHER

Elijah Moore Indicted for the Murder of Parent.

Dexter, Mo., Nov. 21.—Elijah Moore, aged 19, who has been held, under suspicion, for the manslaughter of his father, the Rev. Jesse Moore, made a full confession today, in which he implicated his 15-year old sister, Mary. Later he amended his confession by exonerating the girl. Later in the day the boy was indicted by the grand jury.

Young Moore says he planned the assassination two weeks previous to its commission. His father he says was cruel to his family and allowed his children no pleasure.

The boy got up at 3 o'clock in the morning, shot his father by moonlight, hung the gun up in a rack on the front porch and went back to bed.

got \$800. With this start in his profession the future vice president married and started on the road to success. He fell into a class of commercial practice and receiverships and soon developed a great business capacity for organization. His influence was felt far beyond New Jersey and his hand was felt in the organization of great transportation companies. In addition to being the head of a dozen corporations in New Jersey when he was elected vice president Mr. Hobart was a leading factor in the Joint Traffic association and his hand was deep down in railroad matters.

FORECAST OF WEATHER

Chicago, Nov. 21.—[Special Telegram]—The forecast for Wisconsin is as follows: Threatening weather tonight, and Wednesday with rain.

CUBANS MEAN TO REVOLT.

Will Not Sanction Annexation to the United States.

Madrid, Nov. 21.—Advices from Havana say the majority of the Cubans mean to wait until January before declaring themselves on the matter of independent government, since they still trust that the island will be voluntarily freed by the American authorities. The first publication of the new Madrid newspaper devoted to the cause of Cuban freedom also has been delayed until that date.

In case the annexation of Cuba to the United States is definitely decided on, these letters declare, rebellion, led by the former Cuban army, will break out immediately. The Filipino leaders are said to have offered, for the benefit of the Cubans, to prolong their resistance to American authority until any date the Cubans may fix, so as to embarrass the United States military authorities.

This offer indicates that the Filipinos have lost heart and foresee no chance of making good their boast that they would drive the Americans from the archipelago; their utmost hope being to prolong the guerrilla warfare to serve minor ends.

the British with their infantry fire and Maxims. The British then attacked the Boers on the flank and forced a retreat. The Boer loss is placed at five hundred wounded and three hundred killed.

Natives Rob the Boers

Cape Town, Nov. 21.—[Special Cablegram]—Reports from Horschel, Cape Colony say that the natives whom a party of Boers left in possession of their camp while they went on a raiding tour, have disappeared with the Boer's horses and all the equipment they could carry.

The Latest From Ladysmith

London, Nov. 21.—[Special Cablegram]—The latest news from Ladysmith, November 16, says that on that day there was no bombardment of any severity. The Boers are maintaining a close investment, but their operations are impeded by heavy weather. No mention is made of the battle reported yesterday.

Estcourt Has Not Been Attacked

Durban, Nov. 21.—[Special Cablegram]—Up to last night the advance of the Boers has not attacked the town of Estcourt.

London, Nov. 21.—The Standard publishes the following from Ladysmith, dated Sunday, Nov. 19:

"The arrival of the relief column at Estcourt has completely modified the plans of the enemy and General Joubert has moved to the south in an effort to prevent the junction of the two British forces."

Fear That Natives Will Rise

Berlin, Nov. 21.—The Cologne Gazette publishes the following dispatch from Cape Town:

"Everything is prepared for a general rising of the natives throughout Cape Colony. They are ready at any moment to make common cause with the Boers."

ried the title first to a friend and then to Mrs. Dewey.

In view of the fact that Admiral Dewey must have been fully aware that the transfer would be unpopular, it is only reasonable to conclude that he has some other purpose to serve in making the transfer other than to gratify Mrs. Dewey. When the possibility of such a transfer was discussed a few days ago it was almost universally condemned.

Members of the committee that had charge of the contributions express surprise and disappointment that the admiral has not retained the title to the home. Some of the original contributors in criticising the admiral's action predict that he has effectively removed himself from the hearts of his admirers, as Lieut. Hobson did by promiscuous kissing.

Admiral Dewey has a son, George, who is his legal heir, but who has been cut off by the transfer. Mrs. Dewey's son died a few months ago. Neither the admiral nor Mrs. Dewey will discuss the transaction.

WHY TRANSFER WAS MADE.

Admiral Dewey's Love Affairs Said to Be Involved.

Chicago, Nov. 21.—The special correspondent of the Inter Ocean at Washington sends the following:

"Admiral Dewey's transfer of his gift house to his wife has caused much comment here, and has revived a story that he is about to be sued for breach of promise. The woman reported to be about to sue him is said to be Mrs. Dora Kent, a clerk in the New York city postoffice. She was a clerk in the bureau of equipment here when Dewey was its chief, and when Dewey was transferred to duty at Brooklyn navy yard it is said she was transferred there also.

"When the admiral's intended marriage was announced it is said she threatened to bring breach-of-promise proceedings and claim heavy damages. Confronted with the possibility that his home might be attached to secure payment of possible damages, it is said Dewey made the transfer. Neither Admiral Dewey nor his Washington friends nor the legal representatives of the woman in the case will talk about it, but the story is seemingly well au-

## MACARTHUR IS IN DAGUPAN

No Insurgents Have Been in the City for Four Days.

## WHEELER NOT COMING HOME.

He Advises Congress to Pass a Resolution Declaring the Intention of the United States to Maintain Their Sovereignty in the Islands.

Manila, Nov. 21.—Gen. MacArthur's reconnaissance entered Dagupan Monday afternoon. The Americans found that no insurgents had been there for four days. The Thirty-third Infantry was probably in Dagupan Sunday. No insurgents have been seen anywhere near the railroad, and it is believed that the only armed force of any size is in the mountains of the province of Zambales, to the west, although there are reports of insurgents concentrating at San Miguel de Camilang, west of Panique, and at Mangatarem, west of Bayombong. Gen. MacArthur is prepared for the attack, his forces being disposed between Durban, province of Tarlac, and Dagupan. The Twelfth Infantry, a battalion of the Seventeenth Infantry and two troops of cavalry are with Gen. MacArthur below Dagupan. Gen. Wheeler has decided not to return for Congress. He is writing a letter to President McKinley, with a request that it be forwarded to the house of representatives. In an interview he said: "Congress, if it occupies the first day of the session in passing a resolution declaring in unmistakable terms that the sovereignty of the United States is to be maintained in the Philippines, will be performing a sacred duty. Such a resolution would save the lives of many American soldiers and of thousands of deluded Filipinos, would avert famine, suffering and desolation from these islands, and would render unnecessary the expenditure of hundreds of millions of dollars."

There has been a revival of insurgent activity south of Manila, particularly in Cavite province. At Imus Sunday the Filipinos fired a smooth-bore cannon, but this was soon silenced by the American artillery. In the course of the morning Major Cowles, with a battalion of the Fourth Infantry and two guns, scattered the enemy from the districts around Imus and in the direction of Perez Dasmariñas. Firing was in progress Monday afternoon, and it is reported that there are more insurgents in the vicinity of Imus than ever before.

Two columns, one from Imus and the other from Bacoor, converged on the Zapote bridge, where they found a deserted Filipino camp. Two troops of the Fourth cavalry, four companies of the Fourth Infantry and two guns of Capt. Riley's battery proceeded to Anaboc, south of Imus, and came upon the enemy entrenched at that point. They scattered the Filipinos, but as the latter were subsequently re-enforced, the Americans returned to Imus under fire, seven of our men being wounded. Our scouts found fifteen dead insurgents at Anaboc.

The Spaniards say that the new insurgent capital is Benguet and that the American prisoners are at Camilit. They report having seen Lieut. Gilmore and his party in the north.

## Corrupt Scheme Is Alleged.

Lansing, Mich., Nov. 21.—Charles H. Pratt of Detroit proved to be the most sensational witness that has yet appeared before the grand jury called to look into the conduct of the last legislature. He was the only witness sworn Monday, and is himself authority for the statement that he told the jury the details of the scheme to pass a measure that called for an expenditure of several hundred thousand dollars, to provide law reports of all the states in the union for each county in the state. The scheme, he declares, involved a division of \$20,000 among certain officials and legislators contingent upon the passage of the measure. It lacked three votes of passing the house, and for this reason no money was actually paid.

It is said he still has the indorsed drafts, the body of which is in the handwriting of one of the legislators, whose name he gave to the jury.

## Long to Remain in Cabinet.

Washington, Nov. 21.—Secretary Long's statement that he may retire from the cabinet before the close of the present administration, but probably not until after the presidential election next year, causes little surprise here. It has been generally known for several months that Mr. Long was anxious to retire to private life. Whenever he leaves the cabinet the place will be offered to Mr. Allen, who recently declined the office of civil governor of Porto Rico.

Secretary Long said Monday that he would remain a member of the president's official family until after the general election next year, unless something occurred which would cause that understanding to be changed.

## Diaz Is to Be Re-elected.

City of Mexico, Nov. 21.—Reports received here by the liberal party general committee from all over the republic show many demonstrations on the part of the people in favor of the re-election of President Diaz, and he will be the unanimous choice of the national convention of his party.

## FOOTVILLE.

Footville, Nov. 21.—The concert given by the Ladies' Quartette of Beloit, last Friday night, was of a high nature, and was much enjoyed by those present. The harmony of the voices was good, and the selections rendered were of the best. The attendance was good, and the entertainment course is now assured of success. Remember the next number is A. C. Kempton's lecture on December 8. Thanksgiving services will be held in the Methodist church this year. The sermon will probably be preached by Rev. H. C. Logan, as Rev. F. Muehler expects to be absent in the interest of missions. Miss Eda Hart of Marshall, is visiting her brother, Jesse Hart. There will be a social at the home of Mrs. Campbell next Friday night, given by the ladies of the Christian church. All will be welcome. The schools in this vicinity are well attended this fall, and a good corps of teachers are in charge. The choir at the Methodist church next Sunday morning will be constituted of the Junior League. The boys and girls have fine voices, and may surprise their elders. Mrs. F. D. Pepper visited at Milton last week. Jesse Harvey, who was so badly injured by a corn shredder last week, died on Saturday night. The accident is one of the saddest that has occurred in this vicinity for years. Johnnie Fox fell and broke his arm while playing about the hall on the night of the concert last week. We think a curfew in Footville might lessen such accidents.

## Will Control All Strikes.

Boston, Mass., Nov. 21.—At the meeting of the Knights of Labor Monday it was decided to give the general officers full sway in ordering and managing strikes. This gives them full power instead of being in a measure controlled by the local assemblies. This is intended to do away with the possibility of strike leaders being swayed by local conditions or friendships.

Wagons of this class that we sell are ahead of anything ever used in the city. They are up-to-date in every respect—in usefulness, beauty and durability.

One great point with these wagons is the square drop axle, letting the bottom of the box down to within twenty-one inches of the ground.

The short turn is another special feature, allowing one to turn around in an eleven foot alley.

The box is put up in many different styles for convenience as delivery wagons for milk, bakery goods, groceries, laundry, meat or any other business.

1835—James Hogg, the "Ettrick Shepherd," died; born 1770.  
1886—Charles Francis Adams, author and diplomat, who was United States minister to England during the civil war and an arbitrator in the Alabama claims case, died in Boston; born there in 1807.  
1894—Capture of Yung Arthur, China, and terrible massacre of Chinese.  
1897—General Albert Ordway, veteran of the regular army, died in New York city; born 1812.

## WISCONSIN'S DIGNIFIED SENATORS.

Milwaukee Evening Wisconsin.—There has in certain quarters lately been some very foolish criticism of Wisconsin's senators for not coming out with elaborate proclamations on the subject of the future policy of the United States regarding the Philippine Islands. The absurdity as well as the anachronism of this criticism is so obvious that thoughtful and fair-minded people are unimpressed by it. It emanates from sources politically or personally inimical to the senators, and it seeks to stir up resentment against them by insinuating that they are opposed to the retention of the Philippine Islands. Considering that the newspapers which promulgate the insinuation are themselves opposed to the retention of the islands, it would seem that if their editors really believed what they assert they would champion the senators instead of trying to harass them. Senator Spooner has never lacked in patriotism, in statesmanship, nor in loyalty to the administration. He has made a record in the upper house of the national legislature that is regarded with pride by the people of Wisconsin. He has never hesitated to speak when in his judgment the fullness of time for speaking had arrived. His influence is so great that words from him mean more than words from many men who scatter them with greater freedom. Senator Quarles has not yet taken his seat, and very aptly compares his position to that of a juror who should not talk about his case. It will be high time for the senators to announce conclusions regarding questions of detail when all the evidence as to the matter to be acted upon is officially before them. A neighboring state presents a "heroic example" of a senator who talks. Wisconsin may thank her stars that she is not embarrassed with a Billy Mason.

Peck's Sun and the Waupun Times have been debating the subject of whether a man should wear a night shirt or pajamas. Since the recent raid at the State University, however, the debate has ceased, the universal conclusion being that a gentleman may wear which ever he pleases—so long as the garments are his own.

The McKinley administration is able even in the time of war to buy back government bonds, thus saving the interest money that would be paid out in the years to come. The Cleveland administration was forced to sell bonds in time of peace in order to get money to run the government. What a contrast!

A delegation of Cuban property owners are in Washington to urge the annexation of Cuba to the United States. They claim that endless trouble would follow the withdrawal of the American troops, and say that the land owners and merchants are almost a unit in favor of annexation.

The old saying, "A rose by another name would smell as sweet" is no longer truthful. An analyst has made the discovery that California roses contain 20 per cent. more perfume than those grown elsewhere. Thus, "one by one the roses fall."

By all means, let us have the chemical engine. Your house may catch fire next, and you would be sorry indeed to see the whole edifice flooded in order to reach a small blaze that a chemical engine would extinguish without the use of a drop of water.

Constant Reader.—We know of no president of the United States who achieved his first notoriety by the larceny of women's wearing apparel, and the donning of the same for a halloween parade.

However, without forgetting all that has been said and done, no one can ride over the new Milwaukee street pavement without realizing that it is much the best built street in town.

A widow named Booze recently married a man named James Jams. This

was a logical alliance, for booze and jim jams always go hand in hand through life.

Chairman Jones says W. J. Bryan will surely "lead the democratic party." How can he? Can anything that is going backwards have "a leader?"

Pat O'Dea's leg is still engaged in upholding Wisconsin's motto—"forward."

## FRIENDLY TO THE BOYCOTT

Samuel Gompers Speaks In Defense of Labor Union Methods.

Washington, D. C., Nov. 21.—Samuel Gompers, president of the American Federation of Labor, was the only witness before the Industrial commission yesterday afternoon. Speaking of the union label, Mr. Gompers said that there were thirty-seven different organizations now using the label and that it was growing in popularity rapidly. He defended the boycott as a legal and proper weapon for the workman, holding that what he had a right as an individual to do he was justified in uniting with others to do.

In reply to a question, Mr. Gompers said that organized labor views trusts simply as their employers. There had been cases in which the organizations had been benefitted by the combinations of capital. It was too early to decide whether men would be more steadily employed by the trusts than by other employers. He had found that these combinations have more influence in securing legislation than had unorganized capital.

## PORTER.

Porter, Wis., Nov. 21.—Wm. Therman and little son of New Hampton, Iowa, are visiting relatives and friends here. Eagle creamery paid an average price of 97c per cwt. for October milk. Some of the patrons received as high as \$1.10. Thomas Ford has had his well drilled, and put up a new windmill. A goodly number of the farmers are stripping tobacco, the damp weather the last week enabling them to get the leaf down. Our beautiful fall weather still continues, and is greatly appreciated, and commented upon by all. Mrs. Neil McGinley continues very low. Mark Cheesbro and sister Leo, and Miss Maggie Stafford of the town of Fulton, were visitors here recently.

## MAY SEAT TAYLOR BY FORCE.

Gov. Bradley Confers with Militiamen and Republican Chairman.

Frankfort, Ky., Nov. 21.—Gov. Bradley, after holding a conference with Col. Mengel of the First Kentucky regiment, state militia, located at Louisville, and Col. Roger Williams of the Second regiment, located at Lexington and central Kentucky towns, has been in conference with Chairman George W. Long of the republican state committee. It is believed here that the meeting was for the discussion of a plan of action and thorough understanding in the event force is to be called in to preserve order in carrying out Gov. Bradley's intention with reference to the gubernatorial contest. Both Col. Williams and Col. Mengel are prominent republicans. This, with the fact that Mr. Long has been called into conference, lends color to the statement that Gov. Bradley intends to uphold the claim of the republicans that Taylor has been elected and should be seated. Caleb Powers, candidate for secretary of state on the republican ticket, gave out an interview in which he said the republican ticket had been elected. He called on republicans to see the candidates seated in office, even if this must be done at the mouth of cannon. The governor will not talk.

The democratic state campaign committee concedes that Taylor has a majority on the face of the returns, but bases a hope of the election of the democratic ticket on throwing out the vote of Louisville. Goebel managers announce they will not take an appeal from the decision of Judge Jones at Glasgow, where 1,193 majority of Nelson county votes, erroneously certified for W. P. Taylor, were ordered counted for W. S. Taylor.

## UNCLE SAM'S

Methods of Guarding Vaults of the United States Treasury.

Washington Special Chicago Tribune: Frequently remarks are heard as to how easy it would be for a handful of determined desperadoes to make away with a rich haul of gold and silver as it is being transferred to or from the vaults of the treasury on one of the business thoroughfares of this city. At any hour of the day a curious crowd can be seen standing about the heavy platform at the Fifteenth street entrance to the treasury, upon which small iron safes containing money are being placed in transferring currency to and from the treasury. Speculation is always indulged in and plans formulated for making away with a large amount of Uncle Sam's gold. Those who indulge in this wild speculation are not aware of the danger which would attend such an undertaking. In the first place, it requires at least three men to handle each safe, and it would be almost an impossibility to wrest these treasure-laden boxes from those who have charge of them. Even if this should be done, the robbers would not be able to get away with the booty, as within an incredibly short time a number of government employees armed to the teeth would be on the spot. It is not generally known, but inquiry developed the fact that the seely men who loiter around with no apparent aim in life are expert marksmen. These men can shoot equally well with either hand, and would furnish highly entertaining sport for any one who should attempt to rob Uncle Sam. They are employed by the government at a good salary. Aside from these expert marksmen at the main entrance of the building will be found a number of watchmen, each of whom is provided with a rifle. Secreted in one of the rooms are two gatling guns, and it would require but a short time to bring all these arms into play. To the layman it would seem to be an apparently easy matter to steal some of the government's funds, but it is safe to say a number of lives would be forfeited if such a foolhardy attempt were made.

## PACKING AMERICAN SARDINES.

How an Interesting and Important Industry Is Conducted.

The packing of small herrings, or, as they are often called, "American sardines," is an important industry in Maine. In that state there are fifty factories, which give employment to a large number of hands during four or five months of the year. The annual output is estimated to be of an average value of \$3,000,000, and about half this amount finds its way into the pockets of the factory employees in the form of wages. The fish are caught in seines scattered all along the coast for a distance of about a hundred miles. After the fish are taken in sailboats to the factories they are thrown into strong brine, where they remain for some time. They are then laid on iron crates and conveyed to an immense oven, where the crates are laid on revolving shelves. After twenty minutes' cooking the fish are ready for packing. There are two methods of packing, one in oil, the other in mustard. The ground mustard is mixed with vinegar; for oil packing cottonseed oil is used. About a gill of oil is put into a can, and then the baked fish from the ovens are carefully packed into it and the cover snapped on. The pans then go to the sealer, who sits in front of a little furnace in which his soldering iron is plunged. Seizing the can, he runs the heated iron around the cover, holding the solder just in front of it, and seals the can so rapidly that the eye can hardly follow his movements. The sealed cans are thrown into a bath of boiling water, in which they remain for two hours. If any of them leak, the tops will bulge out, and these go back to be resealed. After the cans are cleaned with sawdust they are packed into cases and put on the market as genuine American sardines in pure olive oil.

## Gypsy Cleverness.

Some clever Romanys have outwitted the city authorities of Milwaukee. That city has an ordinance prohibiting fortune-telling. For some the roving bands of gypsies have settled just over the city line, and there the women of the bands have waited for the credulous who wished a peep into the future. But the dollars came slowly this way, and the wits of the gypsies were taxed to overcome the obstacle of transportation. They solved the problem by engaging a room in the city and installing a long-distance telephone. Word was quietly passed around, and soon there was a steady stream of patronage.—New York Post.

## FOURTH AVENUE MEN RECEIVE THEIR PAY

MAYOR RICHARDSON SIGNS  
THE ORDER.

Seven of the Aldermen Compel the Mayor to Take This Step—Property Owners File Pavement Petition That in All Probability Will Amount to Nothing—Other Business.

Four important matters were presented before the members of the common council last evening at their adjourned meeting as follows:

Twenty-one property owners along West Milwaukee street protested against being taxed their share of the costs incurred in paving that thoroughfare claiming that the contractor failed to comply with the specifications.

City Treasurer Fathens' report was presented and showed that the funds of the city till November 1, 1899, were in a most flourishing condition.

Members of the Fire Police petitioned the city to aid them in the purchase of procuring a combination chemical engine and patrol wagon.

By a two-thirds vote Mayor Richardson signed city orders that means the clearing up of Fourth avenue trouble so far as paying the men who performed labor on that street when it was "repaired." The motion was adopted by the following vote: Ayes—Hutchinson, Kitchman, McLean, Palmer, Peters, Rice, Sennett—7. Noes—Carpenter, Fifield, Gilkey—3.

At 7:45 o'clock Mayor Richardson called the meeting to order and every alderman was present. Numerous reports were referred to their respective committees. Clark Badger then read the communication from the Fire Police which was in the nature of a proposition to the city as follows:

"The Fire Police company hereby agrees and proposes to the common council that in case the common council will procure a combination chemical engine and patrol wagon the Fire Police company will run the same to all fires in lieu of their present apparatus, providing the city add a full paid man to the regular fire department and assign him to duty with the chemical engine."

The communication was referred to the fire and water committee who were given further time to report.

Following are the West Milwaukee street property owners who object to being taxed their share of the paving tax till the contract is carried out to the satisfaction of all:

W. H. H. Macdonald	S. D. Grubb
Geo. F. Yahr	D. Davies
Isaac F. Connors	F. C. Cook
L. A. Williams	C. O. Peterson
Wm. H. Talman	C. E. Whitington
Benj. Bleasdale	David Jeffers
A. P. Lovelady	Matthias J. Mitchell
Geo. G. Sutherland	Wm. L. Mitchell by M.
James Mount	Mrs. F. A. Capelle
F. S. Eldred	J. T. Wright
	Zullit Bros.

City Treasurer Fathens' report was then read of the balances in the various funds of the city Nov. 1, 1899, and the balance in the same funds Nov. 1, 1898.

1898.		1899.	
General fund.....	\$13,236.78	\$15,237.15	
Fire and water fund.....	2,238.56	2,639.97	
Library fund.....	2,656.25	2,657.97	
Lighting fund.....	10,768.11	10,740.57	
Bridge fund.....	167.91	1,232.09	
First ward fund.....	1,332.34	1,831.61	
Second ward fund.....	923.89	1,045.00	
Third ward fund.....	1,231.73	1,999.99	
Fourth ward fund.....	1,231.73	1,511.44	
Fifth ward fund.....	1,231.73	1,511.44	

In the general fund \$650.22 is expended this year for its share of the expense of paving West Milwaukee street. The first ward's share of the street work is \$1,168.54; while the third ward must pay \$266.20; the fourth ward \$589.23; and the fifth ward \$628.42 for street work.

The balance of business transacted was of minor importance.

## MONUMENT FOR MISS WILLARD

Mrs. Lake the Temperance Lecturer Thinks Speech a Plan Advisable

Mrs. Lenora Lake of St. Louis delivered a thrilling temperance lecture at the Y. M. C. A. building last evening under the auspices of the W. C. T. U. of Janesville. The auditorium was completely filled and those present went to their homes satisfied that they had spent a most profitable evening. After being introduced by Mrs. C. W. Van Aiken, president of the local union, Mrs. Lake then spoke for an hour on the evil work that liquor is doing in the world today and urged that all present interest themselves in this great movement of reform.

Mrs. Lake paid a glowing tribute to Frances Willard and urged that people of Janesville raise a monument to her memory.

Mrs. Lake will try and arrange for a Woman's T. A. & B. society before she leaves.

Spinach with Egg. Lettuce Salad. Cheese.  
Rissoles. Coffee.

**TRIPE.**—Tripe is easily masticated and digested, and, with 1,795 grains of carbon and 143 grains of nitrogen in each pound, it might be classed with the more nutritious alimentary substances, but for the reason that its nitrogenous constituents are rather gelatinous than albuminous, which detracts from their nutritive value. It may be made tasty by stewing and adding milk and serving with a rich white onion sauce, recipe as follows: Chop an ounce of parsley and of tarragon, half an ounce of savory and lemon thyme, mixed with two ounces of mushrooms, tablespoonful of capers and two anchovies boned. Put them in a stewpan with half pint of vinegar, a pint and a half of water, half an ounce of salt and add a dozen white peppercorns, 12 cloves, a few blades of mace, a nutmeg grated, the peel of a lemon grated and the juice of a lemon, two spoonfuls of catsup and six glasses of white wine. Set the pan over a slow fire, let contents simmer about an hour. Meanwhile prepare your tripe. This you get ready dressed, and to counter part of the fat removed by the tripe seller. Put two pounds of it in 10 minutes in boiling water, cut it into neat, small pieces and fry them a light yellow in six ounces of butter and set them aside in a dish. Fry in the same butter four ounces of onions cut in thin slices, add the tripe, onion and butter to the stewing and let it boil another quarter hour. This recipe is based on a measure upon a way of preparing tripe which they have in Normandy. "Tripe a la mode de Caen" they call it.

## SPEEDY JUSTICE FOR TWO TRAMPS

THEY STOLE TROUSERS FROM  
J. L. FORD AND SON.

Not From Their Person But From Their West Milwaukee Street Store—Arrested and Sentenced All Inside of Three Hours Time—Five Months in Jail.

James Morgan and Frank Hilton, two wandering hobos, may have traveled all over the world and slept in all kinds of jails, but there is little doubt but what it was left to the Janesville police and courts to deal to them the quickest turn of justice that they ever experienced.

Within three hours time these two men committed larceny, made their escape, were arrested and brought before the court and sentenced.

At 7:45 o'clock this morning two tramps walked into J. L. Ford & Son's clothing store on the bridge and asked to be shown some dark trousers. Not being satisfied they walked out. J. L. Ford, who waited on the two men, then discovered that two pair of trousers were missing from his store.

Chief of Police Hogan was then notified and within ten minutes time he arrested the two tramps as they were making their way up Dodge street toward the railroad yards. One of them had the two pair of trousers concealed beneath his overcoat. At 10:30 o'clock they were brought into court and pleaded guilty to the charge of larceny.

The two pair of trousers were valued at \$10.50. Morgan, who said he lived in New York state, said he was unable to work and that he stole the trousers because poverty drove him to it. Hilton did not have any excuse. He said Milwaukee was his home.

J. L. Ford took the witness stand and identified the trousers as well as the prisoners. The court sentenced Morgan and Hilton each to five months in the Rock county jail at hard labor.

## COTTON COMPANY EXPENDING \$8,000

WATER POWER WAS UNRELIABLE AT TIMES.

Two Hundred and Fifty Horse Power Allis Engine Ordered From Milwaukee Firm—Three Mammoth Boilers Have Been Purchased—Brick Addition Being Constructed.

Improvements that will cost in the neighborhood of \$8,000 are now well underway at the cotton mill in Monterey operated by the Janesville Cotton Mills company.

Not being able to depend on water the year around for power the cotton company recently decided to operate the mill by steam power. The improvement that is now being made includes the placing of a new Allis engine with a 250 horse power.

The engine was built by the Allis company in Milwaukee and is one of the latest improved and most powerful. Three mammoth boilers have been shipped from Milwaukee and are now in position. A brick constructed one story structure has been erected by Contractor James Shearer and in this will be housed the new engine.

Other improvements are to be made about the factory and the work is being rushed to completion. A stockholder in the company said today: "This large outlay of money does not mean that the business warrants such a move. We could not depend on water for power the year around and so we decided that the only thing to do was to operate by steam."

Members of the common council in the city of Rockford, who visited Janesville last week as guests of the Wisconsin Telephone company, refused last evening to grant a franchise to an independent company who wanted to place a line in the Forest City. Frank Bills and others who started the Rock County Telephone company in Janesville were the ones turned down in Rockford.

The vote stood 13 to 1. The Rockford aldermen held that two lines in their city would add much extra expense as many business men would be obliged to take both lines. The company in their city made a reduction in the rates last week which helped their cause.

## MASS TO ATTACK ESTCOURT.

Joubert Seems to Have Determined on a Bold Move.

## WHITE REPORTS A VICTORY.

Attack on Ladysmith Repulsed by the Garrison—Fear Attempt to Destroy the Railroad—Complete Change in Boer Plans Now Reported.

Estcourt, Natal, Nov. 21.—It is reported that a large body of Gen. Joubert's forces is marching south toward Estcourt. It is believed their object is to invest this town.

Major Thornycroft's Infantry engaged the Boers at Willow Grange, to the south of the town, Sunday. The Boers had two killed.

A dispatch received from Gen. White says that on Wednesday and Thursday the Boers attacked Ladysmith in force. All the infantry in the garrison were engaged. The attack was finally repulsed, the Boers' loss in killed, wounded and prisoners being heavy. The British casualties are believed to have been about one-tenth those of the attacking force. A portion of the Boers' trenches was carried.

Runners who came in from Ladysmith Monday report that an attack was made by the Boers on Friday night. They add that they were repulsed with heavy loss. The bombardment continued until almost daylight. The garrison is reported "All well."

A constant lookout is being maintained to the southward, as it is expected the enemy may attempt to cut the railway connection with the coast. If such an attempt be made it will probably cost the Boers more than they reckon for. Everything is going on well in Estcourt. Fresh troops are constantly arriving, and an advance cannot be long delayed.

## Joubert's Plans Changed.

London, Nov. 21.—The Standard's correspondent at Ladysmith, in a dispatch dated Nov. 17, says that the arrival of a relief column at Estcourt has completely modified the plans of the enemy. Gen. Joubert has moved southward to prevent a junction between the two British forces.

The Boers continue to receive reinforcements and fresh supplies of stores almost daily. The soldiers in the garrison are chafing against their enforced inactivity and are eager for action. Their desire is likely to be gratified, as a reconnaissance Tuesday showed that the enemy were holding the road to Colenso in force. A decisive battle is therefore expected when the time comes for the troops now at Estcourt to attempt a junction with the force at Ladysmith.

There need be no anxiety concerning the ability of Ladysmith to hold out. There is plenty of food in the town, and the supply of ammunition is abundant.

Recent reports of the sufferings of the Boers investing Ladysmith from a lack of food supplies are contradicted by the Standard's correspondent with Gen. White, and probably very little is known on the English side of the position of the invaders. It will be seen that the stories emanating from Estcourt of a stiff fight at Ladysmith, or in that neighborhood, last week are entirely contrary to the Standard's report of the very time progress of the siege.

## Dutch Not Joining the Boers.

Cape Town, Nov. 21.—The continuous arrivals of troops destroy any chances of Dutch uprisings in Cape Colony. The occupation of Allwal North and Burgersdorp by the Orange Free State troops did not give them any increase in their military strength. They hoisted the flag of the Free State and occupied the courthouses and post-office. The pro-Boer residents welcomed them, but did not join their commands.

## Gen. Methuen Nears Kimberley.

Cape Town, Nov. 19 (delayed in transmission).—A dispatch from De Aar Junction, dated Tuesday, Nov. 14, says that the advance of the brigade under Gen. Lord Methuen, on the way to relieve Kimberley, was proceeding smartly. The country was being thoroughly reconnoitered to guard against ambush by the Boers, who had retired to the Modder river, twenty-three miles south of Kimberley.

## Fall of Starving Boers.

Pietermaritzburg, Nov. 21.—A party of British heliographers, cut off by the Boers outside Estcourt, contrived to escape to New Hanover, on the Greytown line, and arrived here Monday. They report that 6,000 Boers, driven by starvation, are foraging toward Greytown. No alarm is felt, but it may require a division of the relieving column to annihilate them.

## Says British Employ Kaffirs.

Brussels, Nov. 21.—The Transvaal legation says that Dr. Leyds has further evidence that the British are employing Kaffirs to fight with them. The legation is anxiously waiting confirmation of rumors regarding the capitulation of Ladysmith.

## Cronje at Mafeking.

Cape Town, Nov. 21.—Gen. Cronje, with 2,000 men, has arrived at Mafeking. It is not known whether Mafeking is still making a passive resistance or has fallen, but Boer losses are reported.

## Ladysmith Completely Invested.

Lorenzo Marquez, Nov. 21.—A telegram received from Elandsbaagte says Ladysmith is completely invested. A second big French gun has been placed on Bulwana hill and every shot reaches the town.

## THREATENS BIG COAL STRIKE

President Mitchell Says Many Companies May Be Tied Up.

WAGE SCALE NOT INVOLVED.

New Order Issued Is Objectionable to the Miners—Conference on the Subject Will Be Insisted On—Trouble Coming in Illinois.

Indianapolis, Ind., Nov. 21.—President John Mitchell of the United Mine Workers of America said indications are that he will order a strike of all union miners employed by the Susquehanna Coal company at Nanticoke, Pa., and those working for the Missouri Pacific, Missouri, Kansas & Texas, the Cotton Belt and Iron Mountain railroads, in Missouri, Kansas, Arkansas and elsewhere in the south-west. The trouble is not over a wage scale, but grew out of an order making the miners "round up" their boxes with coal.

Two of the southwestern companies to whom telegrams were sent have replied, declining a conference. They are the Southwestern Fuel and Improvement company and the Missouri Pacific Fuel company, St. Louis. In answer to these messages President Mitchell telegraphed:

"The executive board instructs me to say that unless a conference is agreed to and fair terms of settlement accepted all mines on the Missouri, Kansas & Texas, Cotton Belt and Iron Mountain, employing union men, will be shut down."

President Mitchell, discussing the situation, said: "Our strike, if ordered, will affect in Pennsylvania from 15,000 to 20,000 men. The southwestern strike would bring out about 15,000 men."

President Mitchell decided to hold a conference in St. Louis Thursday with the union coal operators of the Belleville (Ill.) district for the purpose of cutting off all shipments of fuel by them to the railroad companies involved in the contemplated southwestern strike.

Russians Fear Naval Combine.

London, Nov. 21.—The Standard's Odessa cable of Monday says the Sviyeb reverts to what it describes as certain recent and oracular utterances of the Standard in regard to the possibility of a future combination of the British, American and Japanese fleets in case of eventualities arising which are not a remote improbability. The consummation foreshadowed by the Standard, says the Russian journal, is one deserving of Russia's studious consideration, since the combination of the three powerful fleets means a political combination of the three great powers commanding those naval armaments.

San Francisco, Cal., Nov. 21.—Four government transports sailed with troops Monday for Manila. The Hancock left at 1 o'clock, taking the headquarters band and nine companies of the Forty-fourth regiment. The St. Paul sailed at 3 o'clock with six companies of the Thirty-eighth and the City of Puebla at 3:30 o'clock with three companies of the Forty-third. The remaining nine companies of the Forty-third sailed from New York last week on the transport Meade.

President Mitchell Denies Report.

Indianapolis, Nov. 21.—President John Mitchell of the United Mine Workers of America declares that the statement sent out from Boston, where the Knights of Labor have been holding their national convention, that a proposition had been made by the United Miners to turn over to the Knights of Labor 12,000 men, provided John Flannery, editor of the Trade Journal of Pittsburg, were dropped, is untrue.

## PROVE ALL THINGS

This Command is Easy to Fulfill in Janesville.

To win a wager an English Marquis stood on London bridge and offered for an hour British sovereigns (\$5) for five shillings (\$1.25). He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Janesville people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching was sure to manifest itself, if I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the People's Drug Co.'s store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and swing an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.  
Remember the name Doan's and take no other.

## WILHELM IS AT WINDSOR.

Emperor of Germany Pays a Visit to His Grandmother.

Windsor, Nov. 21.—The emperor and empress of Germany and their party arrived here at 1:45 p. m. Monday. They were received by the prince of Wales, the duke of Cambridge and the duke of York, all wearing German uniforms.

There was tremendous cheering in the streets as the imperial party drove to the castle, where they were received by Queen Victoria.

In the course of the afternoon the emperor went for a stroll in Windsor park, inspected the queen's prize cattle and visited the armory. There was a family dinner party at the castle in the evening. Tonight an elaborate banquet will be given in St. George's hall. United States Ambassador Choate will be among the guests.

Says Kruger Is Worried.

London, Nov. 21.—A dispatch to the Central News from Pretoria says President Kruger is no longer confident, but appears terribly worried. He lives like one isolated from the world.

## OSTEOPATHY.

## The Price of a Suit

Of clothes is not always the true expression of its worth. It is equally true that a really good suit of clothes cannot be sold for less than a certain sum. If you pay less you get less, and when you get down to a certain point what you get is worth nothing and your money might as well be thrown in the street.

The price range is adapted to every purse, and each price represents just what twice the amount would buy of made to measure clothes. In buying these garments you get sterling value for your money, and the price is held down just as low as good clothes can be made for. If you seek to save a few dollars by cheaper garments, you get worthless ones and all is wasted. We know this so perfectly well that without hesitation we say that we will give you back your money if you are dissatisfied.

Suits, \$10 to \$25. Overcoats, \$10 to \$40.

# Carload of Fancy New York Apples

We have just unloaded a car of choice varieties of hard winter Apples, grown in Tompkins County, New York. These Apples are the best keeping stock that have been brought to Janesville this season. Of all the fine varieties of Apples grown in this country, the "King of Tompkins County" is the most popular and commands the highest price. This Apple has won for Tompkins County, N. Y., the reputation of being the most famous Apple growing district in the United States. We have a good supply of this celebrated "King" Apple, which we will sell by the barrel at lower prices than they can be bought for at wholesale in Chicago.

We feel confident that an inspection of our stock will convince them that we have the quality of fruit they have been looking for.
